

Classroom Inventory Research:

- 1) **Canon VIXIA HFM X40 Video Camera**: Can make a music video using Video Snapshot. Film several short (2-4 sec) clips. Then set to music – your own or pick one of the ones installed.
- 2) **iPad 2**:
 - a. **Speed up your sentences**: Double-tapping the spacebar while typing a message will type a period and then a space.
 - b. **Swap the search engine**: Too good for Google? You can change Safari's default search engine by going to *Settings, Safari, Search Engine*. Alas, you can only choose from Google, Bing, or Yahoo--no bringing back AltaVista for you.
 - c. **Take a screenshot of whatever is on the screen**: Press *Home* and the sleep/wake button simultaneously. The screenshot will automatically appear among your photos.
- 3) **Sony CyberShot**: Has an in-camera guide. You press the trashcan/? Button. If it is on a picture, then it is delete. If you are not in view mode, then it is the guide.
- 4) **Hitachi LCD** – CP-X2510Z:
 - a. **Blank feature**: can blank out the screen instead of freezing it.
 - b. **Remote** can be used as a mouse .
 - c. **Magnify** on the remote is the zoom function.
